Dear valued guests,

We experience excitement and happiness for opening of our doors to our guests.

During our break in service; we made series of preparations to provide our guests with an accommodation experience that they will spend with health, safety and pleasure. We regarded your health as our priority and while maximizing hygiene conditions, we have based on making no concessions from your comfort.

We would like to share our hygiene and cleaning measures which we have increased by taking in to account of all possible risks due to COVID-19 Pandemic through this manifest.

Best Regards,

ISG Airport Hotel

As ISG Airport Hotel, we added new standards and some new regulations to our current procedure regarding hygiene and cleaning standards during Covid-19 pandemic process by considering the explanations and recommendations of World Health Organization (WHO) and the Ministry of Health Science Committee. Also, we gave protection and information trainings related to Covid-19 to all our employees.

Immediately after arising of the pandemic in our country, our Pandemic Monitoring Committee established within the ISG that is terminal operator of Istanbul Sabiha Gökçen International Airport (ISG) and all our relevant units within the structure of ISG Airport Hotel started to follow the agenda and developments continuously. Pursuant to action plans prepared, these units will continue to follow closely in the coming process, if required, they will continue to make revision to be required for the procedures within the structure of hotel according to new developments.

The most important measures taken by us in this context are disinfection operations.

The most important measures taken by us in this context are disinfection applications. The guest rooms, restaurant, bar, public areas and all other guest areas and kitchen areas, personnel use areas, offices and warehouses in our hotel have been disinfected in detail with Hydrogen Peroxide-based material which its effects of are known and approved. During cleaning of the places, the use of appropriate dosage and right chemicals is ensured and our employees have been trained by expert team.

The disinfection operations made by our professional teams will be continued periodically. In addition, our mobile disinfection teams established within the structure of our hotel will perform duty.

HYGIENE RULES AND MEASURES RELATED TO OUR EMPLOYEES

We also give priority to the health of all our employees who render service to our valued guests in this period as usual. We carried comprehensive and effective general hygiene practice into action in terms of the health of both them and everybody who they are in contact with. The measures taken and practices implemented by us for our personnel are as follows:

- ▶ Primarily, the trainings on the pandemic and measures required to be taken have been given to all our employees by expert company and health teams. These trainings are repeated from time to time.
- ▶ The transfer vehicles used by our employees for their arrival to and departure from work are disinfected before and after each service.
- ▶ Our employees should wear protective mask during transfers and the safe physical (social) distance rule is applied due to capacity of the transfer vehicles are used in the ratio of fifty percent.
- ▶ Our employees undergo general health screening before work and fever measurements are made with digital thermometers.
- ▶ Our employees who don't feel well, have been instructed not to come to the workplace and the procedures they will need to follow have been explained thoroughly.
